

CPD Seminar

Fire & Smoke Access Solutions

The new CPD from Profab Access: Fire & Smoke Access Solutions, covers a full range of access products providing a clear overview of managing access, fire safety and security requirements in your building for fire rated riser doors and steel doors, wall and ceiling access panels

Looking at the most appropriate solutions for access requirements, this CPD examines what considerations should be made when specifying these fire integrity products to ensure legal compliance and suitability for the proposed application.

The CPD gives a good overview of the safe, practical and aesthetic choices for access solutions giving the audience a clear understanding of fire regulations whilst enhancing the aesthetic design through integrated, concealed design.

Brief Outline of the CPD Content

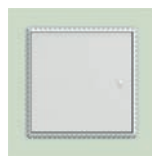

- The fundamentals of fire testing and certification
- Safe operation
- Relevant regulations and standards
- Fire resisting access solutions
- British and European standards relating to access solutions
- How to address aesthetic and design requirements
- Product conformity and legal compliance
