

ALTA 3000 Series

LOFT HATCH CEILING ACCESS PANELS

A simple and secure loft hatch ceiling access panel designed to provide access between 50mm wide timber truss, joisted plasterboard or plaster ceilings, where access to the loft space is required.

PROFAB
WALL ACCESS

Lockable 'loft hatch' ceiling access panel designed to provide 50 mm wide timber truss, joisted plasterboard or plaster ceilings, where access to the loft space is required.

Profab Access' ALTA 3000 Series range of 'loft hatch' metal ceiling access panels are designed and manufactured to provide quick and easy installation with a discreet appearance when finished.

Available in a single door (SD) configuration only, our loft access hatches are specified in residential projects to provide security and practicality with a high quality discreet finish.

Loft ladder installations are also available and can be discussed with the Profab Access Technical team.

AVAILABLE OPTIONS:

- » Non-fire rated (NFR) loft hatch ceiling access panel
- » One hour fire rated (1FR) loft hatch ceiling access panel

One hour fire rated (1FR) loft hatch ceiling access panel
